Katrina Recovery Operation Code

Operation	Description
COASTIE	COASTIE PROGRAM
KR	KATRINA RECOVERY
LEWCLA	LEWIS AND CLARK
NSSE	NATIONAL SPECIAL SECURITY EVENT (NSSE)
PFDP	FFD PANDA TRACKING
WWW	WATERWAY WATCH

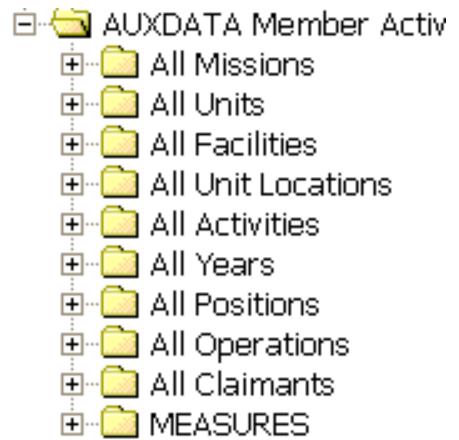

A new Operation Code has been added to AUXDATA to be used by members involved in the Katrina Recovery missions.

This means that Mission Activity reports, ANSC 7030 form are to have the notation "Katrina Recovery" entered in the Remarks section of the ANSC 7030 form to indicate such involvement. This is important so that the Coast Guard can determine the time that Auxiliarist members spent helping with Katrina recovery.

To recover this data, you must go to AUXINFO

You open the “All Operations” folder, right click on “Katrina Recovery,” then left click on “Filter” on the pop up menu. Then all hours shown on the report section will only those hours where the Katrina Recovery Operation was entered in AUXDATA.

Please ensure all members who will be involved in Katrina recovery missions, and those who enter those missions into AUXDATA, are aware of this new Operation Code and how it is to be used.
